Filling prescriptions

Where can I find a pharmacy?

With access to 66,000 pharmacies across the country, you can visit [carefirst.com/findadoc](https://www.carefirst.com/findadoc) and use our *Find a Pharmacy* tool to locate a convenient participating pharmacy. Be sure to take your prescription and member ID card with you when filling prescriptions.

Mail service pharmacy

Mail order is a convenient way to fill your prescriptions, especially for refilling drugs taken frequently.

You can register three ways:

- **Online:** Log in to My Account at [carefirst.com/myaccount](https://www.carefirst.com/myaccount)
- **Phone:** Call 800-241-3371
- **Mail:** Complete the Mail Service Pharmacy Order Form at [carefirst.com/drugforms](https://www.carefirst.com/drugforms)

Once you register, you'll be able to:

- Refill prescriptions online, by phone or by email
- Choose your delivery location
- Consult with pharmacists by phone 24/7
- Schedule automatic refills
- Receive email notification of order status
- Choose from multiple payment options

Ways to save

Here are some ways to help you save on your prescription drug costs:

- **Use generic drugs**—generic drugs can cost up to 80% less than their brand-name counterparts. Made with the same active ingredients as their brand-name counterparts, generics are also equivalent in dosage, safety, strength, quality, performance and intended use.
- **Use drugs on the Preferred Drug List**—the Preferred Drug List identifies generic and preferred brand drugs that may save you money.
- **Use the Drug Pricing Tool**—this tool allows you to compare the cost of a drug purchased at a pharmacy versus purchasing the same drug through mail order, as well as view generic drugs available at a lower cost.
- **Use mail order**—by using our Mail Service Pharmacy you get the added convenience of having your prescriptions delivered right to your home. Plus, if you pay a coinsurance for your maintenance drugs, the overall cost of the drug may be less expensive through mail order, reducing your out-of-pocket costs.

Prescription guidelines

Some medications are only intended to be used in limited quantities; others require that your doctor obtain prior authorization through CareFirst before they can be filled. These drug guidelines are indicated on the formulary found at [carefirst.com/rx](https://www.carefirst.com/rx).

- Quantity limits are placed on selected drugs for safety, quality or utilization reasons. Limits may be placed on the amount of the drug covered per prescription or for a defined period of time. If your doctor decides that a different quantity of medication is right for you, your doctor can request prior authorization for coverage.
- Prior authorization is required before you fill prescriptions for certain drugs. Your doctor must obtain prior authorization before they can be filled. Without prior authorization approval, your drugs may not be covered.
- Step therapy ensures you receive a lower-cost drug option as the first step in treating certain health conditions. When similar drugs are available, step therapy guides your doctor to prescribe the lower-cost option first. You may then move up the cost levels until you find the drug that works best for you. Higher-step drugs may require prior authorization by your doctor before they can be covered.
